

Solutions for Unique Sign and Product Placement.

Spider™ Track Solutions for any non-grid ceiling.

Spider Track is ideal for window displays and plasterboard ceilings. Simply install the Track and hang your sign. It's that simple!

- Multiple tracks can be used to create a layered look.
- Shift, remove and replace displays in seconds.
- Available in anodized aluminum or white paint for plaster and drywall ceilings.

Spider Track

25-0027

48"

96"

Clear anodized aluminum or white painted for plaster or drywall ceilings. Includes mounting hardware. Custom colors available. Minimum quantities may apply. Additional replacement kits available, call for pricing.

Tile Divider Position signage wherever you need it.

Compatible with regular grid and mini grid, the Tile Divider gives you even more display options. No longer limited to the location of your ceiling grids, you can hang your graphics exactly where you want them. New end caps provide an even cleaner look.

New ends caps create a finished look.

Conventional ceiling tile with Tile Divider.

Tile Divider

25-0027-W22.875
Regular Grid 24" (nominal)

25-0027-W23.25
Mini Grid 24" (nominal)

White painted aluminum to match most standard ceiling grids. Custom colors available. Minimum quantities apply. Two end caps are included with each Tile Divider. For other sizes, call for pricing.

Compatible with regular grid or mini grid; Please specify grid type when ordering to ensure proper length.

Super Tile Divider

Displaying signage from your drop ceiling will never be the same.

The Super Tile Divider has all of the same features and benefits as our popular Tile Divider, with added capability. An even sturdier design allows the Super Tile Divider to cross multiple grids in the short direction or a single grid in the long direction, letting you hang even more graphics where you need them. Unique End Caps allow you to place on regular, mini or recessed grid.
