

ZipLine™

Adjust length with just the touch of a button.

Go ahead – adjust your graphic to any height you need.

With 60" of cable adjustable in 3" approximately increments, the new ZipLine makes it easy to change the height of your graphics whenever you need. Simply hold its release button to lengthen or shorten your cable – it's that easy. With its patented design, the ZipLine combines minimal visibility with ease-of-use.

- Cables adjust easily in approximately 3" increments, up to 60" in length.
- Easy to attach and reposition on standard grid ceilings.
- Secure loop design ensures graphics are held safely.
- Use with hole-punched graphics to save money, or with graphic holders for a more upscale look.
- Can now work with our popular Butterfly™ Track.

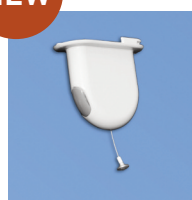

NEW! Now available with cable and saucer for use with most all of our graphics holders.

Easy-to-use loops are compatible with hole-punched substrates or graphic holders.
