

Mighty Mites™

RAN-MM-CC works with cable and saucer and ball chain.

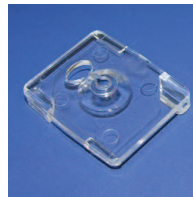

Big strength in a little package.

Our new Mighty Mites combine ease-of-use with superior holding strength. With a simple twist of your wrist, these anchors are held firmly onto your ceiling grid. Best of all, their small profile provides minimal visibility, keeping the focus on your graphics not your signware.

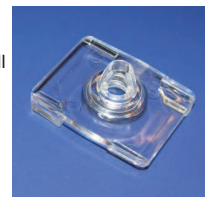

- Easy to attach and remove with simply your hand.
- Low profile disappears on your ceiling grid.
- Two versions available to work with a variety of cables and hooks.

RAN-MM works with a variety of hooks and features a swiveling component for perfect graphic orientation.

Cable and Saucer or Ball
Chain

RAN-MM
Mighty Mite Anchor
for Hooks

Technical Information

Mighty Mites are available in clear polycarbonate plastic only.

Anchors work with any standard 15/16" (nominal 1") grid, Spider Track, Tile Divider, and Butterfly Track.

RAN-MM-CC is compatible with saucer/cable and ball chain. RAN-MM is compatible with plastic and metal hooks. Neither version works with Monofilament.
